Description lib/rexml/attribute.rb to_string method is using "e instead of " when replacing double quotes. https://www.w3.org/standards/xml/core States: " In XML, there are only five built-in character entities: <, >, &, " and ' for <, >, &, " and ' respectively. " Notice it is " and not "e Also here is an exaple (http://www.w3schools.com/xml/xml_attributes.asp) on how to use quotes, notice ", ' and " are mentioned not "e this follows the above spec. The included patch fixes the simple issue.
